 TOP RATED

Full-Stack Web Developer (Front-end + Back-end)

I am Full-stack (Front-end + Back-end) independent developer with over 10 years of experience. I create beautiful, creative, fast, secure, pixel perfect, cross browser, platform independent and responsive websites with the utmost consideration to the User Experience. I also provide full software development process from scratch to delivery.

Front-end skills:
* HTML/XHTML (W3C compliance, semantic)
* CSS 3 (Bootstrap, Less, SASS, Theme, Layout, Grid, Animation)
* User Experience (UX) / User Interface (UI) Design
* Responsive Web Design (Mobile, Tablet, Desktop, Large Desktop)
* Wireframing (Prototyping/Mock-up... more

★★★★★ **5.00** Apr 2016 - Oct 2016

Kanav has executed a flawless web project for me! Not only is he incredibly quick with his work, he is also professional, communicative, and insightful. I always appreciate his code quality, adherence to my requirements, and thought leadership when it comes to the 'little details.' When you need a great asset to handle your work, you dream of a

professional that shows up for you with integrity; keeping his/her word about what they can do and by when. And, not charging you for anything but their actual time on the job. Kanav is 100% that guy. He was willing to work odd hours for me based on my schedule and also willing to cancel his vacations to adhere to my deadlines. A thorough professional who cares.

Expert Front-end UI Developer Required for Web Application   **$400.00**

★★★★★ **5.00** Jun 2014 $20.00 / hr

Kanav helped us to improve the product UI/UX, converted fixed width   20 hours
container application to fully responsive application, fixed cross browser
issues and optimize pages to load faster. Completed all this work at
lightning speed with amazing quality. He has the ability to make
hard/difficult things easy - In fact, he simplified code that previous
programmers had Over-engineered/Over complicated. He has helped us in
a very difficult situation and we are very pleased. We are immensely
satisfied with the results he has given us in such a short period of time and
we will be doing business with him again in the close future.

★★★★★ **5.00** May 2014 - Jun 2014   Fixed Price

Kanav is an outstanding contractor. He is by far one of the best
contractors that you may ever hope to come across on odesk. He is
extremely talented in every regard including his technical ability as well as
his communication skills. He is one of the most driven, ambitious,
determined and straightforward individuals who cares about the quality of
his work and the result of your project. His aim is to always contribute to
the bottom line and he'll work relentlessly to do so. He aims for perfection
and the satisfaction of his clients. We are immensely satisfied with the
results he has given us in such a short period of time and we will be doing
business with him again in the close future.

Front-End Web Development   **$300.00**

★★★★★ **5.00** Apr 2014 - May 2014 $15.00 / hr

One Man Army!!! Kanav is a class act, with excellent business acumen   20 hours
and more importantly, honest and skillfull programmer (developer, team

lead, project manager and software architect) that not only follow direction, but is able to add creativity and proactive initiative to what he do. As a repeat client, I continue to be so impressed and very pleased by his quality of work. It is really hard to find a professional that just executes a perfect website every time. Surely my lead developer on anything IT-related that I do. Look forward to a continued partnership.

PHP Tech lead and architect

⭐⭐⭐⭐⭐ **5.00** Feb 2014 - Mar 2014

The best developer I have ever worked with. I highly recommend his services. Thanks again for your excellent work!

Responsive Website Developer/Designer

⭐⭐⭐⭐⭐ **5.00** Feb 2014

I have worked with Kanav for a few months now and he is a resourceful and creative lead developer. His team management and communication skills and plus the responsiveness to challenging tasks were always outstanding! Additionally his diversely wide programming skills were a true asset to this project. Our project was a complete success. Code was cross platform and cross browser. It felt like I was working with someone across town not across different continents. Perfect example of repeated business and long term relationship. I am lucky that I found Kanav and thanks to Elance for it.

Ongoing Web Development: PHP, HTML5, CSS3, jQuery, PSD, Bootstrap

⭐⭐⭐⭐⭐ **5.00** Jan 2014

Kanav is a very talented UI developer, back end developer, dba, project manager and software architect. He is very knowledgeable in every aspect of the software development life cycle. A true gentleman with excellent communications skills. You can count on Kanav to deliver high quality results on time. I enjoyed working with Kanav, and appreciated the time he took to ensure that everything was completed as requested. I wish Kanav all the best and strongly recommend him to any future employer, and feel confident that he will provide the same level of professionalism and courtesy in all of his future endeavors.
